EXPERIENCE

Web Developer

Codenia Technologies LLP

Feb 2025 – Present Noida Uttar Pradesh

- Delivered **MyBilDr**, an HRMS portal built from scratch with **React.js**, **Redux Toolkit (Saga)**, **NestJs** with **PostgresSql** and deployed end-to-end on AWS Linux server.
- Developing **SupplyBase**, an eCommerce platform built with **Next.js**, **Redux Toolkit (Thunk)**, ensuring scalable architecture and optimized API handling.
- Ensured clean, maintainable code with best-practice system design and implemented robust CI/CD pipelines for smooth deployments.

Freelance Software Development Projects

Sep 2024 – Jan 2025 Remote

- Form Chaining Mailing Application** – Built a full-stack app from scratch (**React.js**, **Node.js**, **Express.js**) with complex form workflows, secure RESTful APIs, and interactive UI.
- Digital Asset Management System** – Developed a React + **TailwindCSS** + **Redux** app with multimedia file management and integrated RESTful APIs for efficient content handling.

Software Developer Intern

LCNC Technologies Pvt. Ltd.

Jan 2024 – Jul 2024 Noida, Uttar Pradesh

- Built and maintained features for the low-code/no-code platform **DrpCode**, including *Collection Snapshot* for one-click NoSQL backups and restores with Redis caching.
- Developed *Delete Permission* for controlled module deletion via toggle switches, ensuring secure and authorized data management.

TECHNICAL SKILLS

Frameworks & Libraries

- React.js** **Node.js** **Next.js** **Express.js** **Redux**
- HTML** **CSS** **Bootstrap** **Tailwind CSS**
- MongoDB** **Redis** **REST APIs** **PostgresSQL**

Programming Language

- JavaScript** **TypeScript** **Python**

Others

- Git** **GitHub** **Postman** **Linux** **AWS** **CI/CD**

CERTIFICATIONS

Namaste Node.js (by [NamasteDev](#))

EDUCATION

M.C.A

Dr. A.P.J Abdul Kalam Tech. University

2022 – 2024 Muradnagar, Uttar Pradesh

B.C.A

I.T.E.R.C

2019–2022 Duhai, Uttar Pradesh

PROJECTS

MyBilDr – HRMS Portal for Builders

- React.js** · **MUI** · **Tailwind CSS** · **Redux Toolkit** · **Redux-Saga** · **NestJs**
- Built the frontend of a robust HRMS platform designed for builder staff management and onboarding workflows.
- Integrated secure NestJS APIs to onboard workers via QR code and guided them through 11 dynamic forms with file/media uploads.
- Handled complex async flows and form state using **Redux Toolkit** combined with **Redux-Saga**.
- Enabled AWS-based storage for documents and media files; integrated PayPal for smooth business transactions.

SupplyBase

- Next.js** · **Tailwind CSS** · **Redux Toolkit with Thunk** · **REST APIs**
- Developed a frontend for an eCommerce platform focused on construction and utility procurement.
- Consumed Laravel-powered APIs to implement secure token-based authentication with a custom client-side auth wrapper.
- Built dynamic product listings, search, filtering, and API-driven cart functionality with smooth UX.
- Managed complex state and async flows efficiently using **Redux Toolkit** and **Thunk middleware**.

DevTinder

- Node.js** · **Express.js** · **JWT** · **MongoDB** · **AWS (EC2)** · **RazorPay**
- Developed a full-stack matchmaking platform with secure authentication and payment integration.
- Built the backend with Express and MongoDB, and deployed the complete application on an EC2 instance.
- Integrated **RazorPay** for smooth and secure transaction handling.
