SUMMARY

Software Engineer with 2 years building production platforms using **React.js**, **Next.js**, **Node.js**, **Express.js**, **MongoDB**, and **PostgreSQL**. Skilled in **system design**, REST APIs, AWS deployment, and SEO/Web Vitals optimization.

EXPERIENCE

Web Developer

Feb. 2025 – Aug 2026

Codenia Technologies

Noida, Uttar Pradesh

- Developed and maintained **SupplyBase**, a UK-based e-commerce platform for construction-site supplies, using **React.js**, **Next.js**, **Node.js**, **Express.js**, **MongoDB**, and **PostgreSQL**.
- Built production-ready features including authentication, coupon engine, checkout flow, and admin modules, and integrated secure **REST APIs**, payment workflows, and third-party services.
- Improved technical **SEO** and **Core Web Vitals** (LCP, FID, CLS), increasing organic search visibility and page-load performance.
- Deployed and managed applications on **AWS EC2** (with **S3** for file storage) using **Nginx**, **PM2**, **Linux**, and **CI/CD** pipelines, optimizing scalability and uptime.

Software Developer (Contract, Remote)

Sep. 2024 – Jan. 2025

Confidential Client

Ahmadi, Kuwait

- Built a **Form Chaining Mailing Application** for an oil company's internal use, using **React.js**, **Node.js**, and **Express.js** to implement multi-step workflows, secure REST APIs, and role-based authentication.
- Developed a **Digital Asset Management System** for storing and organizing media assets, using **React.js**, **Tailwind CSS**, and **Redux Toolkit** with reusable UI components and secure file handling.

Software Developer Intern

Jan. 2024 – Jul. 2024

LCNC Technologies Pvt. Ltd.

Noida, Uttar Pradesh

- Developed Collection Snapshot on DrapCode for NoSQL database backup and restore with Redis caching.
- Implemented Delete Permission module enabling secure, role-based deletion of application resources, and collaborated with senior developers to design scalable low-code platform features.

PROJECTS

SupplyBase ↗ | *Next.js, React.js, Node.js, Express.js, MongoDB, PostgreSQL, AWS*

- Implemented **authentication**, **coupon engine**, **checkout**, **SEO management**, **analytics**, and admin modules while optimizing application **performance** and search engine visibility.

MyBilDr ↗ | *Next.js, React.js, NestJS, PostgreSQL, AWS*

- Architected an **HRMS** (HR Management System) portal using **Next.js**, **React.js**, **NestJS**, and **PostgreSQL**.
- Built a dynamic, admin-configurable **11-step form** with conditional logic for employee onboarding and data collection.
- Developed secure **REST APIs**, implemented **authentication**, file management, and deployed the application on **AWS** infrastructure.

LovesGoals ↗ | *Next.js, React.js, Node.js, MongoDB, Tailwind CSS*

- Built an online wedding e-invitation platform with multi-step guest invitation forms and dynamic, admin-configurable event settings.
- Developed an admin panel for managing form configuration and exporting guest response data.
